Brian's Eye on Entertainment **Captain America Brave New World (PG** **13) *******

Captain America Sam Wilson has just rescued hostages from a Mexican Sting Operation. Sam Wilson aka Captain America visits Ross who is now the President of the United States. They come under attack and they find out that Dr. Samuel Sterns is behind the attack. Sterns has been giving Ross gamma radiation pills which cause Ross to turn into the Red Hulk. He causes chaos but is calmed by his friend, Sam. Ross remembers his time with his little girl, Betty, and remembers walking through the cherry blossom trees. This softens his mood and he becomes very calm and is no longer the Red Hulk any more. Sterns warns Ross that more bad people are coming but we all know that Captain America will return to help.
